7-quart 120-volt Cayenne® 1776 & 1777 Colonial Kettle™ warmer in antique copper

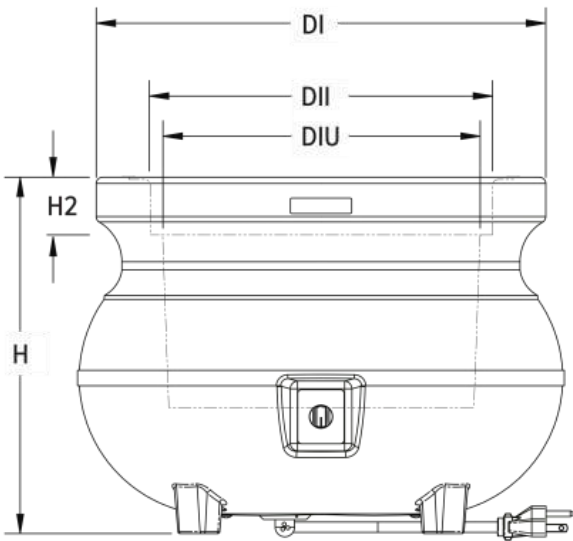

The Vollrath® 7-quart Cayenne 1776 & 1777 Colonial Kettle warmer is ideal for soup, stew, chili and more. This 700-watt warmer is made of durable cast aluminum and coated in copper-colored epoxy to give it a traditional, attractive appearance. The recessed controls

prevent accidental temperature adjustments, and the hinged lid seals heat inside while simultaneously allowing easy access. This kettle comes with display cards and clips to properly advertise its contents.

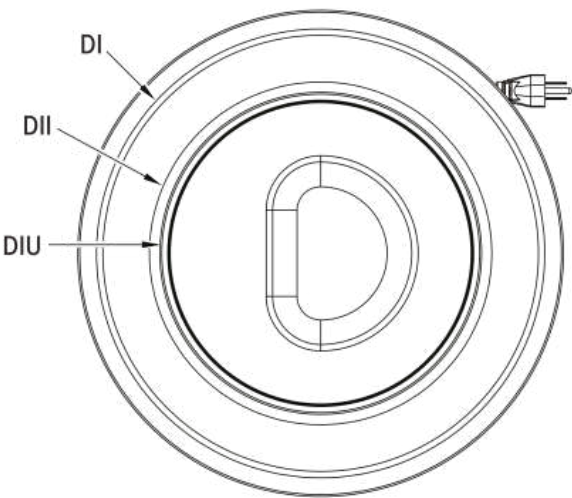

- Easily warms soup, stew, chili and more
- Durable cast aluminum provides years of quality service
- Thermostatically controlled for more accurate heating
- Bottom-exit power cord allows universal countertop placement

- Copper color creates an attractive, traditional look
- Four-leg design increases stability and durability
- 7-quart inset included

Twin-well 120-volt Cayenne® countertop rethermalizer designed for two 4-quart insets

The Vollrath® twin-well Cayenne countertop rethermalizer is ideal for a wide range of foods. Thermostatic controls ensure accurate heating, and with a separate control for each well, you can heat and serve multiple products at once. The coated aluminum wells and stainless steel exterior make cleaning easy and efficient. A bottom-exit 6-foot power cord provides flexibility in countertop placement while the compact design saves space.

Easily rethermalizes a wide variety of soups, stews, sauces, dips and more

Individual thermostatic controls ensure accurate heating for merchandising products with different temperature requirements

Black feet improve stability and prevent movement on any countertop

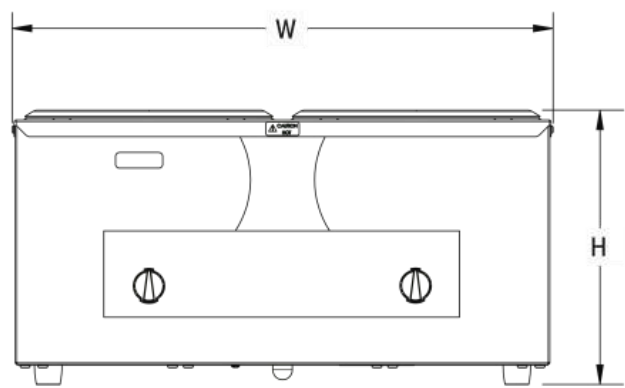

NSF 4 performance standards

NSF-certified

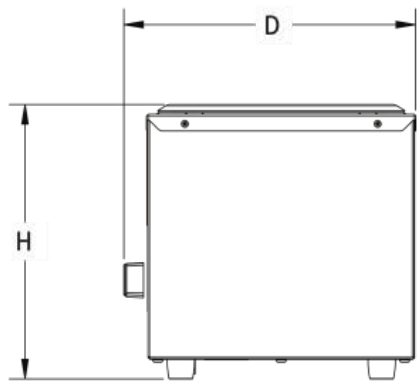

Holds two 4 1/8-quart insets (product number 78164)

11-quart 230-volt Mirage® countertop induction rethermalizer in natural finish with China plug

The Mirage countertop induction rethermalizer by Vollrath makes it easier than ever to heat and serve food at safe temperatures. Sensors monitor food temperatures at three points on the inset, and an indicator light notifies you when the contents need to be stirred, helping to evenly distribute heat and prevent burning. Induction heating does not require water, ensuring faster heating times and better temperature control. This unit won't provide heat until an induction-ready inset is placed inside to reduce energy waste. The versatile digital

controls have four convenient presets or precise temperature settings in °F or °C, depending on your preference. This exceptional product comes with a Vollrath induction-ready inset and top contemporary design inset cover, providing everything you need for operation, and the natural finish creates a sleek look.

Induction heating means heat is transferred directly to the induction-ready inset, which eliminates the need to monitor and refill water levels

Sensors reduce food waste and make clean-up easier by preventing food from burning in near-empty insets

Digital controls allow precise temperature settings in °F or °C

Digital controls allow precise temperature from 100-190°F in 1 degree increments.

Soup, crème soup, chili, mac and cheese, and rethermalize presets are included for speed and convenience

Sensors monitor the temperature at three points on the inset to activate the Stir Indicator LED which notifies the operator to stir the food to maintain temperature and quality

Contemporary lid design allows convenient, quick serving and helps condensation return to the inset to maintain food quality and prevent messes

6-foot cord and China plug

Vollrath induction-ready inset and inset cover included. Requires use of Vollrath induction ready inset — failure to use these insets may damage the unit and will void the warranty

Full-size 120-volt Cayenne® Model 1001 countertop warmer

The full-size Cayenne Model 1001 countertop warmer by Vollrath offers the lowest operating costs on the market. This countertop model features a direct-contact heating system, for improved performance and efficiency, and a dome heating element that uses up to 25 percent less energy by concentrating the energy into the well itself. The capillary tube thermostat supplies power only when it is needed, saving energy and reducing operational costs, and the heating element is cast in the unit for greater energy transfer. Recessed controls prevent accidental adjustments. A low-water indicator light keeps you informed, while a bottom-exit 6-foot power cord provides flexibility in countertop placement.

Efficiently warms a wide variety of food

Durable thermoset fiber-reinforced resin well is built to last

Wide no-drip lip keeps countertops dry

Black feet improve stability and prevent movement on any countertop

Thermostatic controls ensure accurate heating

Nonstick surface is easy to clean, saving you time

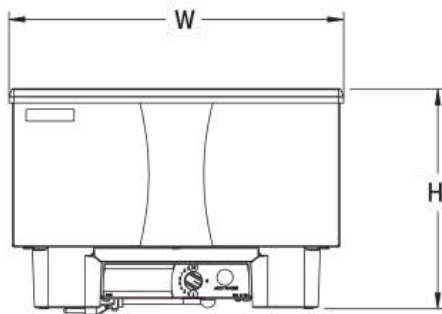

Black well and brushed stainless steel exterior gives this unit a clean, sleek look

Designed to fit 4-inch-deep full-sized pans

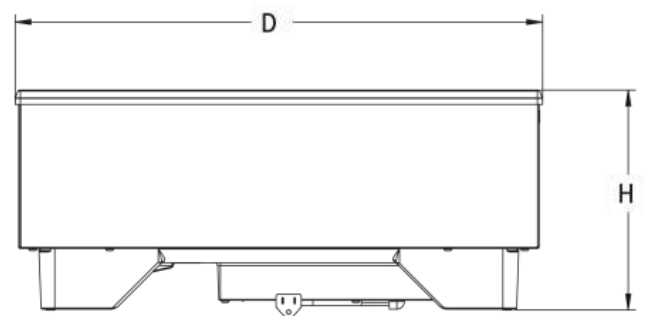

Made in the USA

NSF-certified

120-volt Cayenne® model T43R Heat 'N Serve countertop rethermalizer kit

Maintain serving temperatures with the Vollrath® Cayenne OHC-500 heat lamp. This stainless steel hood evenly directs heat over a 12- x 20-inch area, and the lamp height is adjustable, accommodating your preference. The chrome-plated legs and uprights give this lamp a clean finish, and the on/off switch is cord-mounted for ultimate convenience. Nonskid feet prevent movement, while the two shatterproof white bulbs maintain safety.

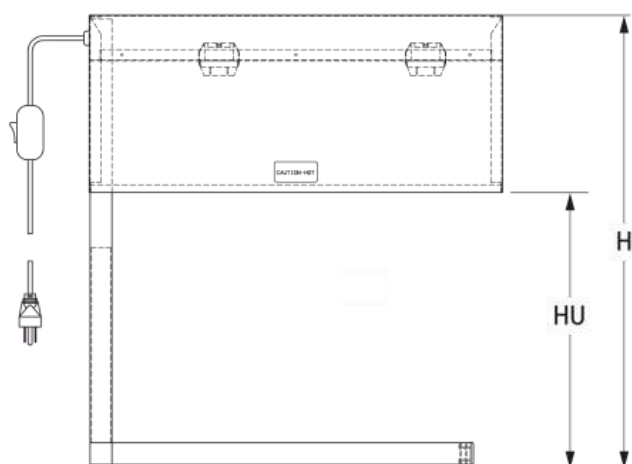

Ideal for sides, entrees, soups and more

Pan not included

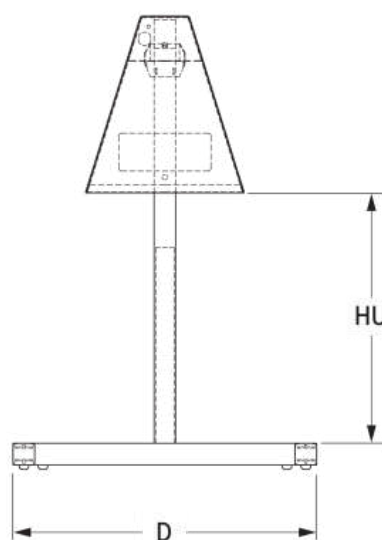

Lamp height is adjustable from 12 1/2 inches to 20 1/2 inches above counter

Wide base assembly holds standard 12" x 20" pan or Vollrath 71001 warmer

11-quart 120-volt round Cayenne® Heat 'N Serve rethermalizer with accessory package

The Vollrath® round Cayenne Heat 'N Serve rethermalizer is ideal for soups, stews, sauces and more. The durable well improves energy efficiency, and thermostatic controls ensure accurate heating. The nonstick coating on the heating element prevents scale buildup, reduces cleaning time, and extends the life of this unit. Recessed controls prevent accidental adjustments, and a low-water light keeps you informed. The wide no-drip lip prevents messes, and nonskid feet maintain stability and prevent movement. This package includes

an inset and hinged cover, providing everything you need to operate this unit. The bottom-exit power cord provides flexibility in countertop placement, increasing the versatility of this compact, powerful rethermalizer.

Safely rethermalizes soup, stew, chili, sauces and more

Durable well is made of thermoset fiber-reinforced self-insulating resin for maximum energy efficiency

Thermostatic controls ensure accurate heating

Bottom-exit 6-foot cord and plug provide flexibility in countertop placement

Uses up to 25 percent less energy, saving you money

Package includes 11-quart inset (78204) and hinged cover (47490)

120-volt Half-Size Long Countertop Warmer

New compact Vollrath® countertop warmer packs all of the convenience and versatility into half the size. Its stainless steel well keeps foods at optimal temperature for freshness and safety, no matter what size pans you use — half-size, fourth-size or sixth-size pans up to 6 inches deep. And thanks to 10 user-adjustable thermostatic settings, ranging from approximately 104°F to 212°F, you can depend on temperature consistency and power efficiency.

Accommodates a variety of fractional pans for versatility

Durable stainless steel well is easy to clean

Front-access dial makes heat adjustment easy

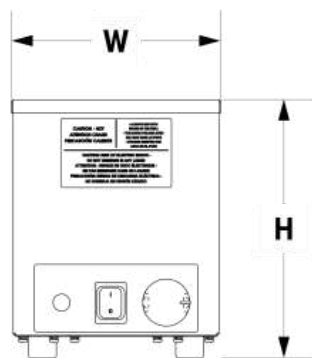

Indicator light notifies users when well needs water

Non-skid rubber feet help prevent countertop sliding

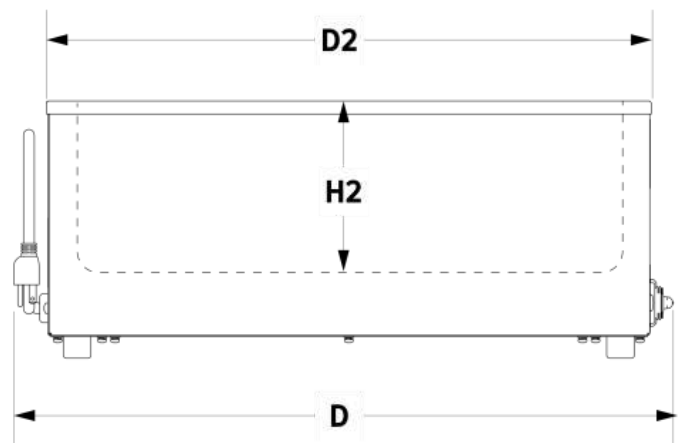

6-foot power cord allows safe and user-friendly placement

Meets NSF4 Performance Standards for hot food holding

11-quart 120-volt round Cayenne® Heat 'N Serve rethermalizer

The Vollrath® round Cayenne Heat 'N Serve rethermalizer is ideal for soups, stews, sauces and more. The durable well improves energy efficiency, and thermostatic controls ensure accurate heating. The nonstick coating on the heating element prevents scale buildup, reduces cleaning time, and extends the life of this unit. Recessed controls prevent accidental adjustments, and a low-water light keeps you informed. The wide no-drip lip prevents messes, and nonskid feet maintain stability and prevent movement. The bottom-exit power cord provides flexibility in countertop placement, increasing the versatility of this compact, powerful rethermalizer.

Safely rethermalizes soup, stew, chili, and more

Durable well is made of thermoset fiber-reinforced self-insulating resin for maximum energy efficiency

Thermostatic controls ensure accurate heating

Bottom-exit 6-foot cord and plug provide flexibility in countertop placement

Uses up to 25 percent less energy, saving you money

7-quart model also available

Twin-well 120-volt Cayenne® model TW-27R rethermalizer designed for two 7-quart insets

The Vollrath® Cayenne model TW-27R rethermalizer is durable, energy-efficient, and easy to use. With the direct-contact heating system, this rethermalizer uses up to 25 percent less energy and quickly heats your food. Each well has an independent thermostatic control, allowing you to heat two different products at once, as well as a rethermalizing timer that

stops warming when the timer ends. Once the timer is done, simply set your desired holding temperature to maintain heat. Knob guards prevent accidental adjustments, and the durable stainless steel exterior gives this unit a clean look.

Safely rethermalizes soup, stew, chili, sauces and more

Durable stainless steel exterior is easy to clean

Rethermalizing timer stops heating when the timer ends for your convenience

Thermostatic controls ensure accurate heating

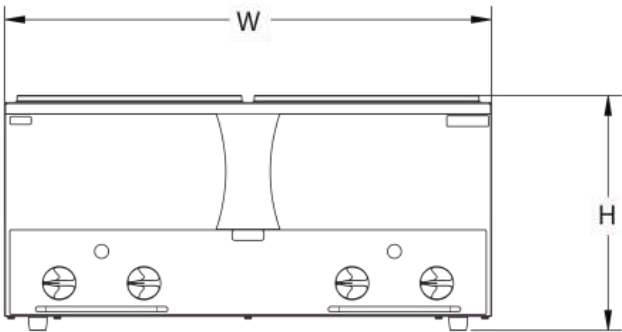

Nonskid feet prevent movement

Meets NSF 4 performance requirements for rethermalization and hot food holding equipment

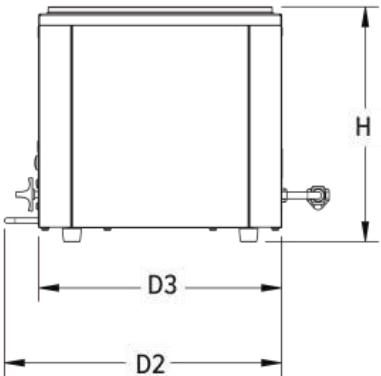

Holds two 7¼-quart insets (product number 78184), sold separately

Twin-well 120-volt Cayenne® countertop rethermalizer with two 4-quart insets and two hinge covers

The Vollrath® twin-well Cayenne countertop rethermalizer with two 4-quart insets is ideal for a wide range of foods. Thermostatic controls ensure accurate heating, and with a separate control for each well, you can heat and serve multiple products at once. This unit comes with two insets and two hinge covers, providing you with everything you need to operate this

unit. The coated aluminum wells and stainless steel exterior make cleaning easy and efficient. A bottom-exit 6-foot power cord provides flexibility in countertop placement while the compact design saves space.

Easily rethermalizes a wide variety of soups, stews, sauces, dips and more

Individual thermostatic controls ensure accurate heating for merchandising products with different temperature requirements

Black feet improve stability and prevent movement on any countertop

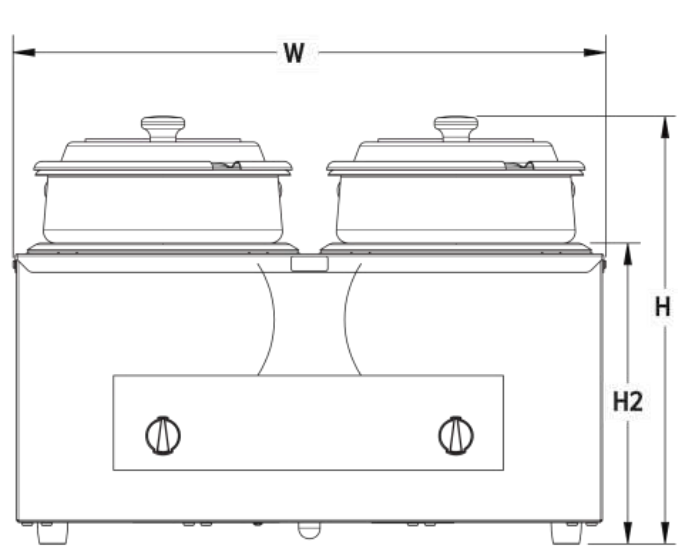

NSF 4 performance standards

NSF-certified

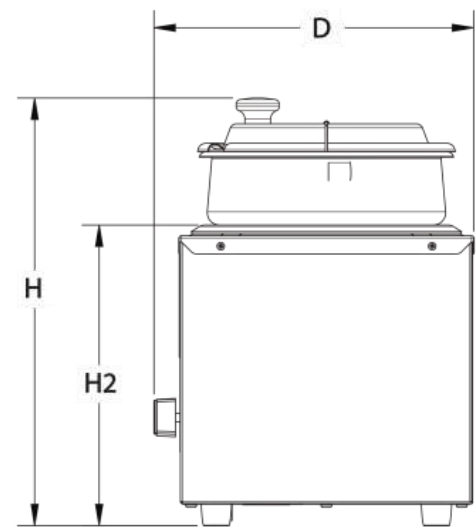

Two 4 $\frac{1}{8}$ -quart insets (product number 78164) and hinge covers (product number 47486) are included

Four-third-size 120-volt Cayenne® model T43R Heat 'N Serve countertop rethermalizer

Maximize your serving capacity with the the Vollrath® four-third-size Cayenne model T43R Heat 'N Serve rethermalizer. The oversized well is made of thermoset fiber-reinforced self-insulating resin, increasing energy efficiency. With the direct-contact heating system, this rethermalizer uses up to 25 percent less energy and quickly heats your food. A capillary tube thermostat ensures temperature accuracy, and the recessed controls and switches prevent accidental adjustments. The low-water light and power indicator light keep you

informed, and the dual 800-watt elements have a nonstick surface to prevent scale buildup, reduce cleaning time, and extend the life of this unit. The bottom-exit power cord provides flexibility in countertop placement, increasing the versatility of this compact, powerful rethermalizer.

Easily rethermalize multiple foods at once

Durable stainless steel exterior makes cleaning easy and efficient

Wide no-drip lip keeps countertops dry and returns condensation to well

Adapter bars (Item 75012 sold separately) recommended to reduce evaporation and conserve energy

Adapter plate (Item 19188 sold separately) with three 8 3/8-inch-diameter holes for 7 1/4-quart round insets

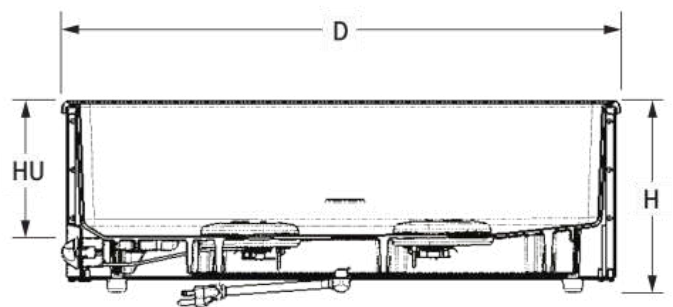

800-watt elements allow for fast heating and recovery times

28 3/4" x 13 3/4" well fits four third-size food pans up to 6 inches deep, creating a serving capacity that is 33 percent greater than full-size warmers

Wide no-drip lip keeps countertops dry and returns condensation to well

Adapter bars (Item 75012 sold separately) recommended to reduce evaporation and conserve energy

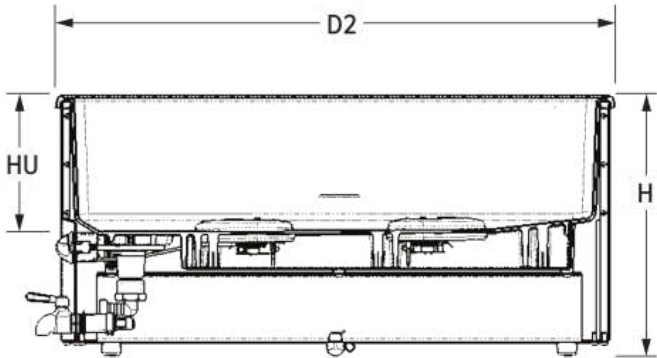

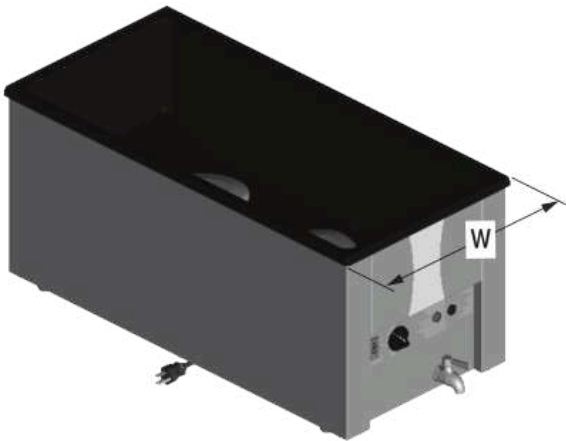

Adapter plate (Item 19188 sold separately) with three 8 3/8-inch-diameter holes for 7 1/4-quart round insets

800-watt elements allow for fast heating and recovery times

28 3/4" x 13 3/4" well fits four third-size food pans up to 6 inches deep, creating a serving capacity that is 33 percent greater than full-size warmers

Four-third-size 120-volt Cayenne® model T43R Heat 'N Serve countertop rethermalizer

Maximize your serving capacity with the Vollrath® four-third-size Cayenne model T43R Heat 'N Serve rethermalizer. This unit has a 5-20P plug and is intended for use in Canada. The oversized well is made of thermoset fiber-reinforced self-insulating resin, increasing energy efficiency. With the direct-contact heating system, this rethermalizer uses up to 25 percent less energy and quickly heats your food. A capillary tube thermostat ensures temperature accuracy, and the recessed controls and switches prevent accidental adjustment. The low-

water light and power indicator light keep you informed, and a drain keeps cleaning simple. The dual 800-watt elements have a nonstick surface to prevent scale buildup, reduce cleaning time, and extend the life of this unit. The bottom-exit power cord provides flexibility in countertop placement, increasing the versatility of this compact, powerful rethermalizer.

Easily rethermalize multiple foods at once

Durable stainless steel exterior makes cleaning easy and efficient

Wide no-drip lip keeps countertops dry and returns condensation to well

Adapter bars (Item 75012 sold separately) recommended to reduce evaporation and conserve energy

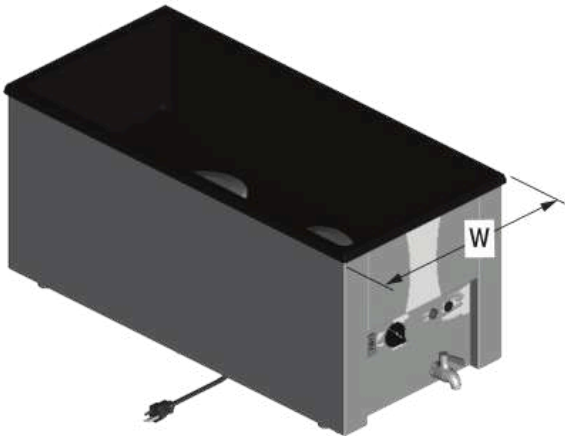

Adapter plate (Item 19188 sold separately) with three 8 3/8-inch-diameter holes for 7 1/4-quart round insets

Full-size 120-volt Cayenne® Nitro™ rethermalizer

Safely heat a variety of foods with the Vollrath® Cayenne Nitro rethermalizer. This powerful rethermalizer is designed to take food from a chilled state to a safe heated temperature of 150°F or higher in less than 90 minutes. The energy-efficient direct-contact heating element quickly heats your food by concentrating energy into the well, and the heavy-duty bulb and capillary thermostat have overheat protection to help extend the life of your unit. The large well accommodates full or fractional size food pans up to 4 inches deep, and the extra-large water reservoir reduces the number of refills required for smooth operation.

Safely and quickly rethermalizes soup, stew, chili, sauces and more

300-Series stainless steel well is built for years of service

NSF 4-listed when using moist heat

High-efficiency 1440-watt element operates on a 15-amp circuit

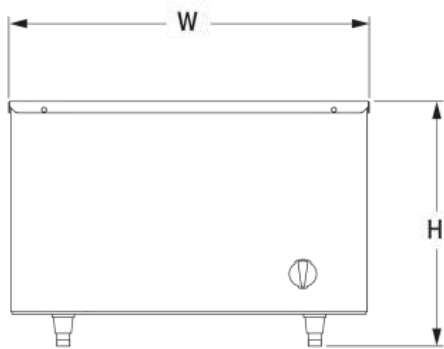

Adjustable 1-inch feet maintain stability on any countertop

Fits full and fractional size 4-inch deep food pans

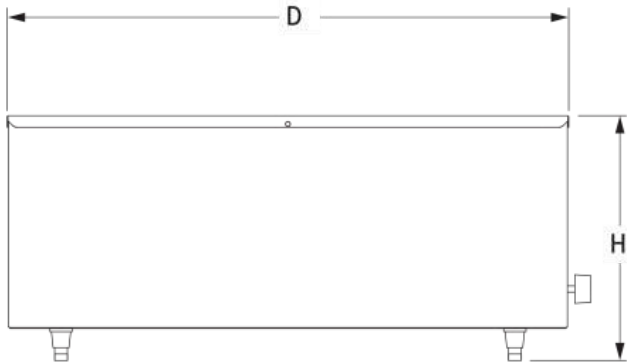

6-foot cord and plug

120-volt Cayenne® OHC-500 heat lamp

Maintain serving temperatures with the Vollrath® Cayenne OHC-500 heat lamp. This stainless steel hood evenly directs heat over a 12" x 20" area, and the lamp height is adjustable, accommodating your preference. The chrome-plated legs and uprights give this lamp a clean finish, and the on/off switch is cord-mounted for ultimate convenience. Nonskid feet prevent movement, while the two shatterproof red bulbs maintain safety.

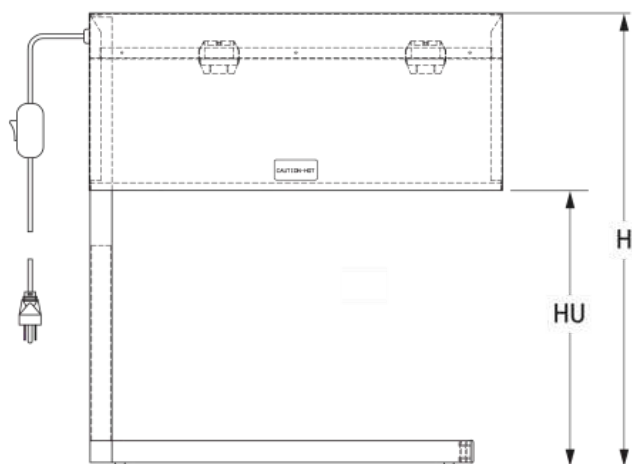

Ideal for sides, entrees, soups and more

Pan not included

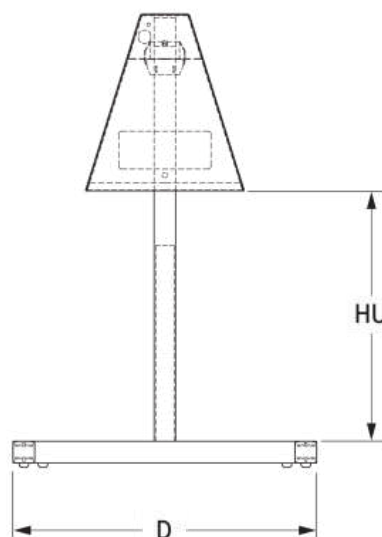

Lamp height is adjustable from 12 1/2 inches to 20 1/2 inches above counter

Wide base assembly holds standard 12" x 20" pan or Vollrath 71001 warmer

7-quart 230-volt Cayenne® 1776 & 1777 Colonial Kettle™ warmer in black with Schuko plug

The 7-quart Cayenne 1776 & 1777 Colonial Kettle warmer by Vollrath is ideal for soup, stew, chili and more. This 700-watt warmer is made of durable cast aluminum and coated in black epoxy to give it a versatile, attractive appearance. The recessed controls prevent accidental temperature adjustments, and the hinged lid seals heat inside while simultaneously allowing easy access. This kettle comes with display cards and clips to properly advertise its contents.

Easily warms soup, stew, chili and more

Durable cast aluminum provides years of quality service

Thermostatically controlled for more accurate heating

Bottom-exit power cord allows universal countertop placement

Black color creates an attractive, versatile look

Four-leg design increases stability and durability

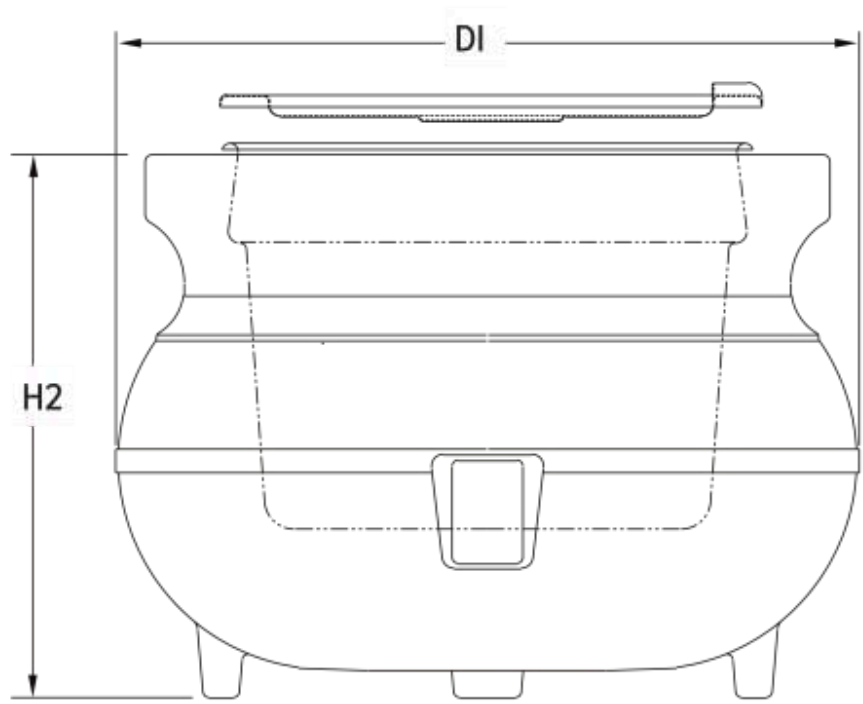

Schuko plug

Cayenne® Model 1001 Warmer

The Model 1001 Warmer offers the lowest operating cost on the market.

This model features the DIRECT CONTACT HEATING SYSTEM, the ultimate in performance and efficiency.

Thermoset Fiber reinforced resin well

Capillary tube thermostat control supplies power only when needed for maximum power efficiency

Low-water indicator light eliminates guesswork

Dome heating element uses up to 25% less energy and concentrates energy into the well

Element's non-stick surface prevents scale build-up for easy cleaning and longer operating life

Element is cast-in for longer service life and greater energy transfer

Must be used with water for maximum energy transfer

Standard black well and brushed exterior

Wide no-drip lip keeps countertop dry

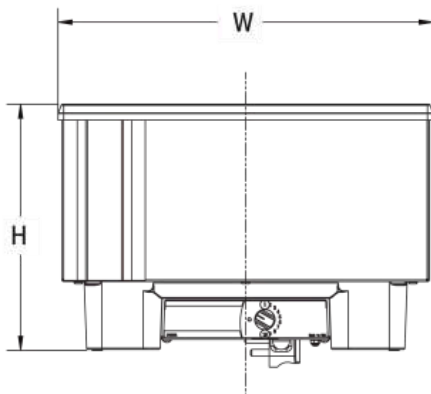

Recommend using up to 4" (10.2 cm) deep food pans - standard and fractional sizes

Overall dimensions: 21 3/4"L. x 13 3/4"W. x 9"H. (55 x 33 x 23 cm)

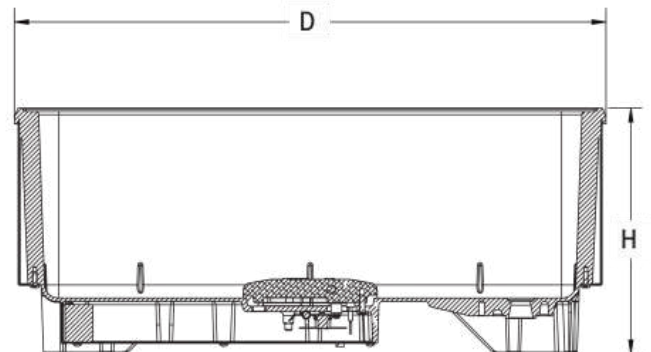

Bottom exit power cord allows for universal positioning

6' (183 cm) cord and plug

Full-size 230-volt Cayenne® Model 1001 countertop warmer with black exterior and Schuko plug

The full-size Model 1001 Cayenne countertop warmer by Vollrath offers the lowest operating costs on the market. This countertop model features a direct-contact heating system, for improved performance and efficiency, and a dome heating element that uses up to 25 percent less energy by concentrating the energy into the well itself. The capillary tube thermostat supplies power only when it is needed, saving energy and reducing operational costs, and the heating element is cast in the unit for greater energy transfer. Recessed controls prevent accidental adjustments and create a streamlined appearance, as does the classic black color. A low-water indicator light keeps you informed, while a bottom-exit 6-foot power cord provides flexibility in countertop placement.

Efficiently warms a wide variety of food

Durable thermoset fiber-reinforced resin well is built to last

Wide no-drip lip keeps countertops dry

Black feet improve stability and prevent movement on any countertop

Thermostatic controls ensure accurate heating

Nonstick surface is easy to clean, saving you time

Black well and exterior gives this unit a clean, sleek look

Designed to fit 4-inch-deep full-sized pans

6-foot cord and Schuko plug

Made in the USA

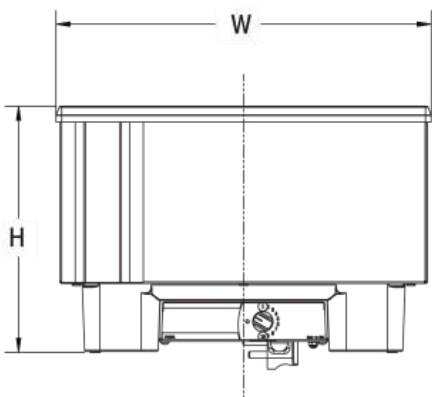

NSF-certified

Overall dimensions: 21 3/4"L. x 13 3/4"W. x 9"H. (55 x 33 x 23 cm)

120-volt Cayenne® model T43R Heat 'N Serve countertop rethermalizer kit

Maximize your serving capacity with the Vollrath® Cayenne model T43R Heat 'N Serve rethermalizer kit. The oversized well is made of thermoset fiber-reinforced self-insulating resin, increasing energy efficiency. With the direct contact heating system, this rethermalizer uses up to 25 percent less energy and quickly heats your food. A capillary tube thermostat ensures temperature accuracy, and the recessed controls and switches prevent accidental adjustment. The low-water light and power indicator light keep you informed, and a drain

keeps cleaning simple. The dual 800-watt elements have a nonstick surface to prevent scale buildup, reduce cleaning time, and extend the life of this unit. The bottom-exit power cord provides flexibility in countertop placement, increasing the versatility of this compact, powerful rethermalizer.

Easily rethermalize multiple foods at once

Durable stainless steel exterior makes cleaning easy and efficient

Wide no-drip lip keeps countertops dry and returns condensation to well

Adapter bars (Item 75012 sold separately) recommended to reduce evaporation and conserve energy

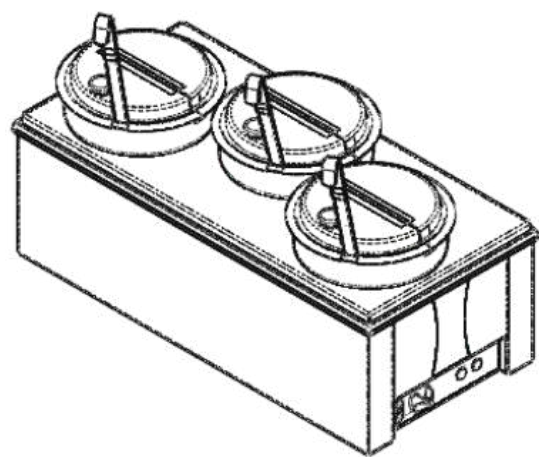

Accessory kit includes: one 19188 adapter plate, three 78184 insets, three 47488 hinged inset covers, and three 4980420 heavy-duty 4-ounce black Kool-Touch® ladles

800-watt elements allow for fast heating and recovery times

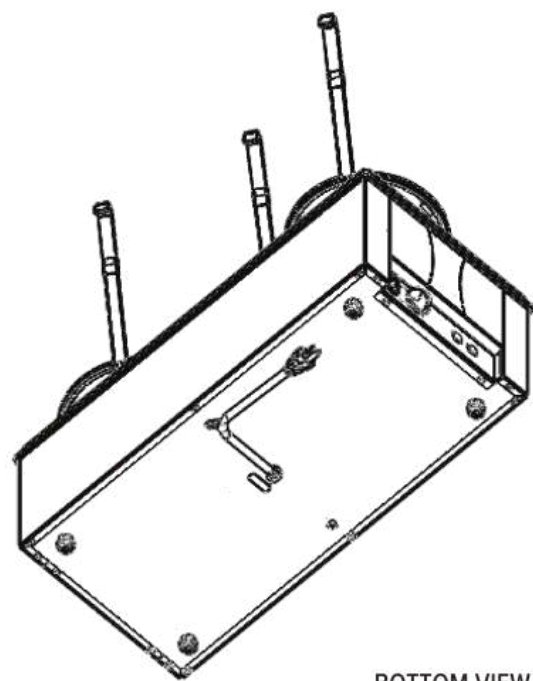

28 3/4" x 13 3/4" well fits four third-size food pans up to 6 inches deep, creating a serving capacity that is 33 percent greater than full-size warmers

120-volt Cayenne® dual countertop food warmer

The Vollrath® Cayenne dual food warmer fits two full-size steam table pans. Operating at a total of 1440 watts, two independent warmers are thermostatically controlled for better heating and increased variety. The drainage hoses and controls are hidden behind a panel to create a smooth look for front-of-house use. With the lowest energy usage of any dual full-size warmer on the market, you can lower your costs and energy consumption when you plug into any 15-amp outlet.

Easily warms a wide variety of food products

Durable stainless steel exterior provides years of service

Lighted main power switch controls power to both warming wells for ease of use

Each well is independently controlled, allowing you to prepare a variety of food at once

The direct-contact heating system makes heating more efficient, saving you money and time

Hidden drainage hoses create a more attractive appearance and make cleanup easier

Each well holds one full-size steam table pan

11-quart 120-volt retro stockpot rethermalizer in green apple

The Vollrath® eye-catching retro stockpot rethermalizer is sure to increase soup sales. The ceramic base heating element ensures quick and consistent heating, while the heavy-duty exterior prevents burns by staying cool to the touch. This unit comes with an 11-quart inset that is easy to clean, as well as a hinged lid that simplifies serving and prevents messes. Strong handles make this rethermalizer easy to transport, while the unique design and bright green apple color catch customers' attention.

Easily warms soup products to safe temperatures

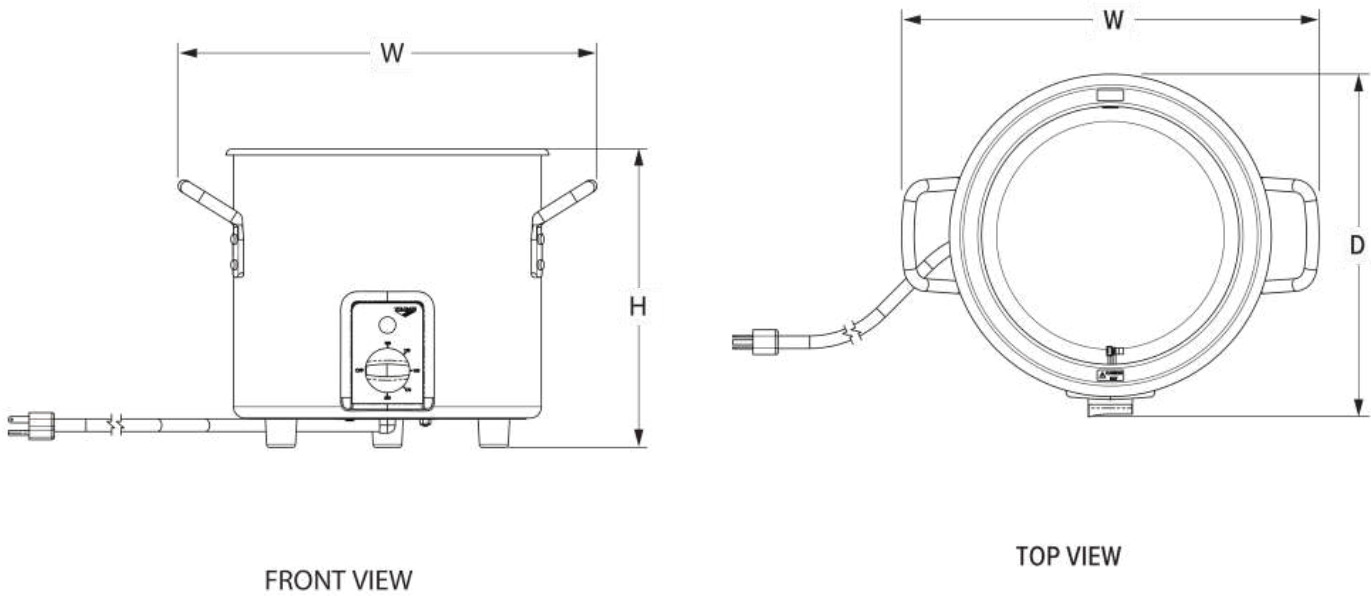

Powerful ceramic base heating element works quickly

Also available in pearl white, fire engine red, black black, or natural finish

11-quart inset and hinged lid included, providing everything you need for operation

7-quart 120-volt retro stockpot rethermalizer in natural finish

The Vollrath® eye-catching retro stockpot rethermalizer is sure to increase soup sales. The ceramic base heating element ensures quick and consistent heating, while the heavy-duty exterior prevents burns by staying cool to the touch. This unit comes with a 7-quart inset that is easy to clean, as well as a hinged lid that simplifies serving and prevents messes. Strong handles make this rethermalizer easy to transport, while the unique design and smooth natural finish catch customers' attention.

Easily warms soup products to safe temperatures

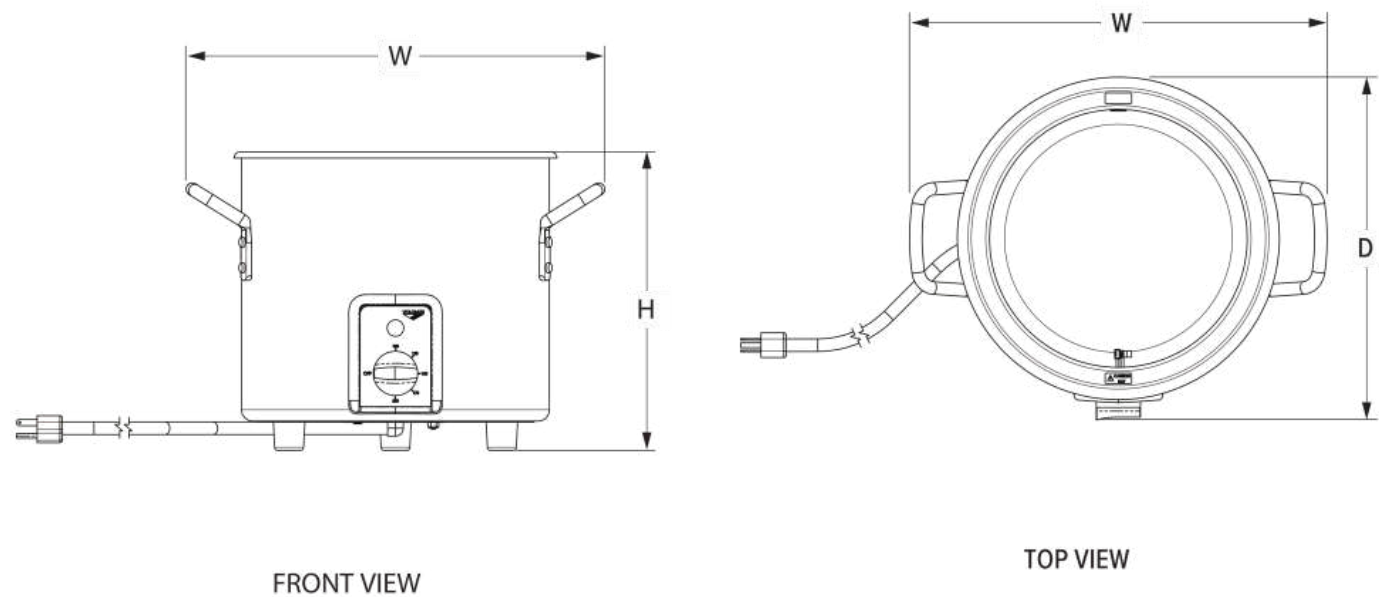

Powerful ceramic base heating element works quickly

Also available in green apple, pearl white, fire engine red, or black black

7-quart inset and hinged lid included, providing everything you need for operation

7-quart 120-volt Mirage® countertop induction rethermalizer in natural finish

The Mirage countertop induction rethermalizer by Vollrath makes it easier than ever to heat and serve food at safe temperatures. Sensors monitor food temperatures at three points on the inset, and an indicator light notifies you when the contents need to be stirred, helping to evenly distribute heat and prevent burning. Induction heating does not require water, ensuring faster heating times and better temperature control. This unit won't provide heat until an induction-ready inset is placed inside to reduce energy waste. The versatile digital

controls have four convenient presets or precise temperature settings in °F or °C, depending on your preference. This exceptional product comes with a Vollrath induction-ready inset and top contemporary design inset cover, providing everything you need for operation, and the natural finish creates a sleek look.

Designed for soup, chili, mac and cheese and more

Powerful induction heating works quickly to heat food and hold it at safe temperatures

Digital controls allow precise temperature settings in °F or °C

Soup, CSoup, chili and mac and cheese presets are included for convenience

Sensors monitor the temperature at three points on the inset to activate the Stir Indicator LED which notifies the operator to stir the food to maintain temperature and quality

Sensors reduce food waste and make clean-up easier by preventing food from burning in near-empty insets

Vollrath induction-ready inset and inset cover included. Requires use of Vollrath induction ready inset — failure to use these insets may damage the unit and will void the warranty

Contemporary lid design allows convenient, quick serving and helps condensation return to the inset to maintain food quality and prevent messes

Design patent D695056. Other patents pending

INDUCTION SOUP PLUNGER KIT	353039-1

7-quart 230-volt Mirage® countertop induction rethermalizer in natural finish with Schuko plug

The Mirage countertop induction rethermalizer by Vollrath makes it easier than ever to heat and serve food at safe temperatures. Sensors monitor food temperatures at three points on the inset, and an indicator light notifies you when the contents need to be stirred, helping to evenly distribute heat and prevent burning. Induction heating does not require water, ensuring faster heating times and better temperature control. This unit won't provide heat until an induction-ready inset is placed inside to reduce energy waste. The versatile digital

controls have four convenient presets or precise temperature settings in °F or °C, depending on your preference. This exceptional product comes with a Vollrath induction-ready inset and top contemporary design inset cover, providing everything you need for operation, and the natural finish creates a sleek look.

Designed for soup, chili, mac and cheese and more

Powerful induction heating works quickly to heat food and hold it at safe temperatures

Digital controls allow precise temperature settings in °F or °C

Digital controls allow precise temperature from 100-190°F in 1 degree increments.

Soup, CSoup, chili and mac and cheese presets are included for convenience

Sensors monitor the temperature at three points on the inset to activate the Stir Indicator LED which notifies the operator to stir the food to maintain temperature and quality

Sensors reduce food waste and make clean-up easier by preventing food from burning in near-empty insets

Contemporary lid design allows convenient, quick serving and helps condensation return to the inset to maintain food quality and prevent messes

6-foot cord and Schuko plug

Vollrath induction-ready inset and inset cover included. Requires use of Vollrath induction ready inset — failure to use these insets may damage the unit and will void the warranty

Design patent D695056. Other patents pending

INDUCTION SOUP FAN KIT	351918-1
INDUCTION SOUP PLUNGER KIT	353039-1

11-quart 120-volt Mirage® countertop induction rethermalizer in natural finish

The Mirage countertop induction rethermalizer by Vollrath makes it easier than ever to heat and serve food at safe temperatures. Sensors monitor food temperatures at three points on the inset, and an indicator light notifies you when the contents need to be stirred, helping to evenly distribute heat and prevent burning. Induction heating does not require water, ensuring faster heating times and better temperature control. This unit won't provide heat until an induction-ready inset is placed inside to reduce energy waste. The versatile digital

controls have four convenient presets or precise temperature settings in °F or °C, depending on your preference. This exceptional product comes with a Vollrath induction-ready inset and top contemporary design inset cover, providing everything you need for operation, and the natural finish creates a sleek look.

Induction heating means heat is transferred directly to the induction-ready inset, which eliminates the need to monitor and refill water levels

Sensors reduce food waste and make clean-up easier by preventing food from burning in near-empty insets

Digital controls allow precise temperature settings in °F or °C

Soup, crème soup, chili, mac and cheese, and rethermalize presets are included for speed and convenience

Sensors monitor the temperature at three points on the inset to activate the Stir Indicator LED which notifies the operator to stir the food to maintain temperature and quality

Vollrath induction-ready inset and inset cover included. Requires use of Vollrath induction ready inset — failure to use these insets may damage the unit and will void the warranty

Contemporary lid design allows convenient, quick serving and helps condensation return to the inset to maintain food quality and prevent messes

UPC	029419000289
-----	--------------

Unit Dimensions

Overall Dimensions (IN)	13.9 x 13.9 x 13.43
(W) Width (IN)	13.9
(D) Depth (IN)	13.9
(H) Height (IN)	13.43
(DI) Diameter	13.9
(WB) Width of Body (IN)	12.36
(DB) Depth of Body (IN)	12.36
(HB) Height of Body (IN)	10.14

Overall Dimensions (CM)	35.3 x 35.3 x 34.1
(W) Width (CM)	35.3
(D) Depth (CM)	35.3
(H) Height (CM)	34.1
(DI) Diameter (CM)	35.3
(WB) Width of Body (CM)	31.4
(DB) Depth of Body (CM)	31.4
(HB) Height of Body (CM)	25.8
Size	11

Electrical

Plug	Australia
Domestic / International	Australia

Volume

Capacity (L)	10.4
Capacity (QT)	11

Case Lot Measurement

Case Lot	1
Case Width	14.75
Case Height	15.25
Case Length	14.75
Case Lot Cube (ft.)	1.83
Case Lot Weight (lbs.)	13.64

PRODUCT **ACCESSORIES**

Name	Item #
11 7/16-inch stainless steel hinged cover with Kool-Touch® handle	47490
11-quart induction-ready inset	88204
11-quart induction-ready inset with nonstick interior	88204NS
4-ounce stainless steel ladle with black Ergo Grip™ Kool-Touch® handle	4980422

PRODUCT PARTS

Name	Part #
INDUCTION SOUP FAN KIT	351918-1
INDUCTION SOUP PLUNGER KIT	353039-1
