48-inch 120-volt Cayenne® heat strip with cord and plug

Keep food items hot and fresh with the Cayenne heat strip by Vollrath. It features a structurally engineered aluminum housing that offers maximum strength with minimal weight. The unique element ensures impressive heat production, with a sheathed design for improved dependability and longevity. The reflector ensures evenly dispersed heat and creates a large temperature zone above 140°F for safer food holding. Toggle switch controls are easy to use, and two screws allow quick service access when needed. This heat strip

has a 6-foot cord and plug, and it must be used with legs (Vollrath item numbers 44504 and 4450613, sold separately). Optional Kool-Touch® trim (Vollrath item number 1789748, sold separately) is heat-resistant for increased safety.

Structurally engineered aluminum housing offers maximum strength with minimal weight

Sheathed element design provides improved dependability and longevity

Reflector ensures evenly dispersed heat and creates a large temperature zone above 140°F for safer food holding

Toggle switches are easy to use

Two screws allow quick service access

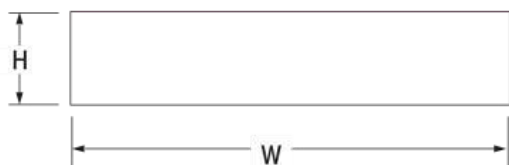

Features a 6-foot cord and plug

Heat strip must be used with legs (Vollrath item numbers 44504 and 4450613, sold separately)

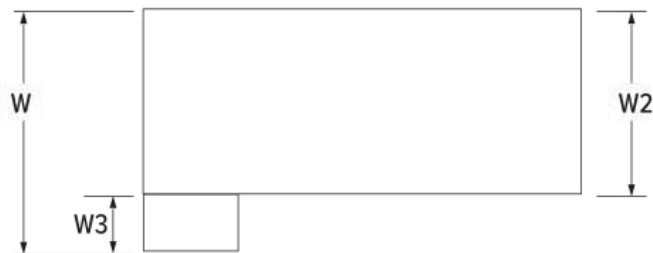

Optional Kool-Touch trim (Vollrath item number 1789748, sold separately) is heat-resistant for increased safety

Please note this is a made-to-order item. These items require additional time for fulfillment. Made-to-order items cannot be changed, canceled or returned and may be subject to a minimum-order quantity. Contact your Vollrath sales representative for details.

120-volt 16-inch Mirage® square countertop induction buffet warmer in natural finish

Expand your menu offerings while saving energy with the Mirage square countertop induction buffet warmer by Vollrath. This warmer's touch controls are easy to use and prevent accidental temperature adjustments, while the LED indicator lights on the control panel and glass top keep you informed. The four temperature settings allow you to hold a variety of foods at safe temperatures. Several safety features extend the life of the unit and improve the overall experience. The black tempered glass top is durable and easy to clean,

while the elegant natural finish and smooth design coordinate with any serving setup.

Due to the low power usage, you can operate up to three warming units per electrical outlet, simplifying cord management and easing load capacity concerns. Easily connect up to three units with the included interconnect cords, and then plug the middle unit into a wall outlet. When the cords are not in use, store them in the compartment underneath the unit for ultimate convenience.

Ideal for any buffet or catering event

Low, medium, high and preheat chafer temperature settings allow you to serve a variety of foods

Overheat protection, small article detection, pan auto-detection, and empty pan auto-shutoff safety features extend the life of the unit

LED indicator lights keep you informed

Sleek, low-profile design and elegant natural finish create an attractive presentation

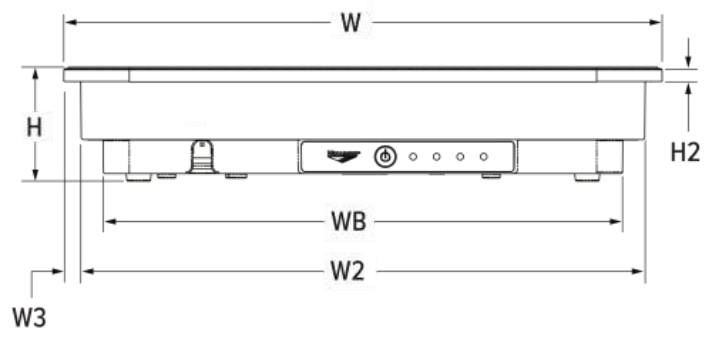

Low power usage and inter-connect cord allows up to three units to run off of one power cord

Inter-connect cords store in compartment under unit when not in use

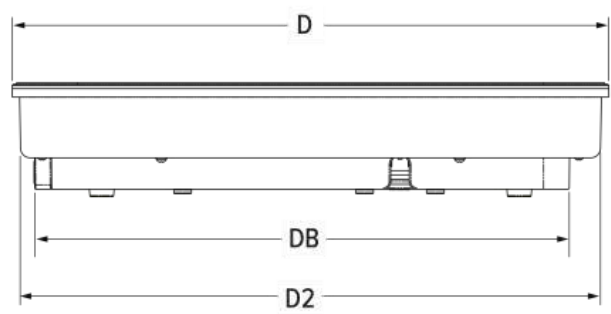

Custom decorative patterns or logos available on 16" x 16" units. Contact your local Vollrath sales representative for more information.

230-volt 16-inch Mirage® square countertop induction buffet warmer in natural finish with Australian plug

Expand your menu offerings while saving energy with the Mirage square countertop induction buffet warmer by Vollrath. This warmer's touch controls are easy to use and prevent accidental temperature adjustments, while the LED indicator lights on the control panel and glass top keep you informed. The four temperature settings allow you to hold a variety of foods at safe temperatures. Several safety features extend the life of the unit and improve the overall experience. The black tempered glass top is durable and easy to clean,

while the elegant natural finish and smooth design coordinate with any serving setup.

Due to the low power usage, you can operate up to three warming units per electrical outlet, simplifying cord management and easing load capacity concerns. Easily connect up to three units with the included interconnect cords, and then plug the middle unit into a wall outlet. When the cords are not in use, store them in the compartment underneath the unit for ultimate convenience.

Ideal for any buffet or catering event

Low, medium, high and preheat chafer temperature settings allow you to serve a variety of foods

Overheat protection, small article detection, pan auto-detection, and empty pan auto-shutoff safety features extend the life of the unit

LED indicator lights keep you informed

Sleek, low-profile design and elegant natural finish create an attractive presentation

Low power usage and inter-connect cord allows up to three units to run off of one power cord

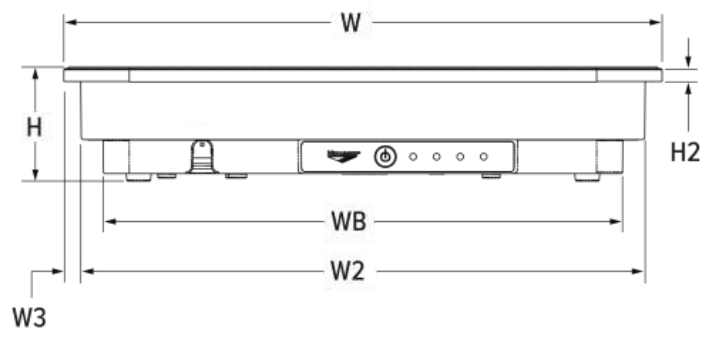

Inter-connect cords store in compartment under unit when not in use

6-foot cord with Australian plug

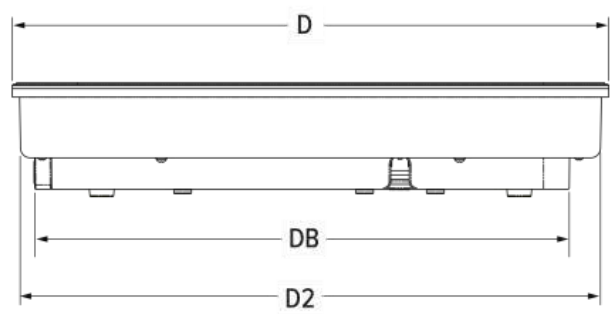

Custom decorative patterns or logos available on 16" x 16" units. Contact your local Vollrath sales representative for more information.

Mirage® Induction Buffet Warmers - DISCONTINUED

Maximize your menu offerings without maxing out your electrical capacity with the Mirage® Induction Buffet Warmers. The low wattage warmers can be interconnected to one electrical outlet, which simplifies the planning and management of power cords, access to outlets and load capacity.

Use for holding/warming of foods for serving - ideal for banquets and catering

Fewer cords- connect up to 3 units together with an inter-connect cord – and only run one power cord to outlet on wall

Subtle, low-profile, attractive design coordinates with any serving set-up

Four power levels - low, medium, high and chafer preheat

Countertop version available in Natural or Black

LED indicator lights on control panel and glass

U.S. units only : At 2.5 Amps each, up to 5 units (at maximum power) can be plugged into a 15 amp circuit. 3 per power cord.

Convenient storage compartment underneath unit for cords not in use

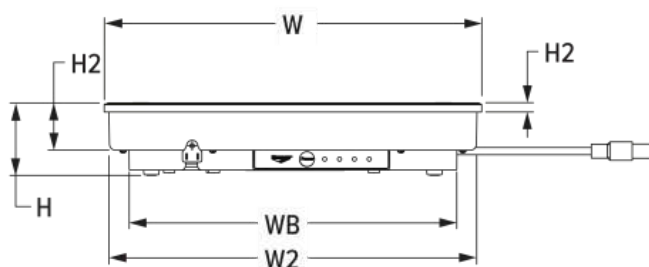

Fits perfectly in 59145 carrying case (sold separately)

Designed to work with one (1) Vollrath chafer or serving vessel, or equivalent induction-ready chafer or serving vessel

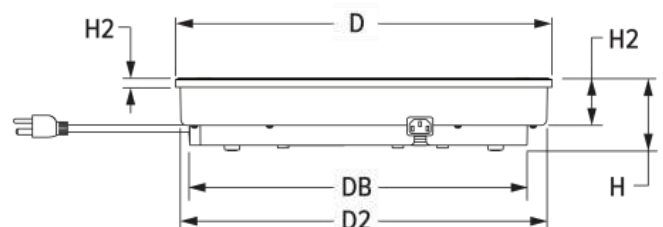

Custom decorative patterns or logos available on 16x16 units. Contact your local Vollrath sales representative for more information.

230-volt full-size Mirage® countertop induction buffet warmer in natural finish with China plug

Expand your menu offerings while saving energy with the full-size Mirage countertop induction buffet warmer by Vollrath. This warmer's touch controls are easy to use and prevent accidental temperature adjustments, while the LED indicator lights on the control panel and glass top keep you informed. The four temperature settings allow you to hold a

variety of foods at safe temperatures. Several safety features extend the life of the unit and improve the overall experience. The black tempered glass top is durable and easy to clean, while the elegant natural finish and smooth design coordinate with any serving setup.

Due to the low power usage, you can operate up to three warming units per electrical outlet, simplifying cord management and easing load capacity concerns. Easily connect up to three units with the included interconnect cords, and then plug the middle unit into a wall outlet. When the cords are not in use, store them in the compartment underneath the unit for ultimate convenience.

Ideal for any buffet or catering event

Low, medium, high and preheat chafer temperature settings allow you to serve a variety of foods

Overheat protection, small article detection, pan auto-detection, and empty pan auto-shutoff safety features extend the life of the unit

LED indicator lights keep you informed

Sleek, low-profile design and elegant natural finish create an attractive presentation

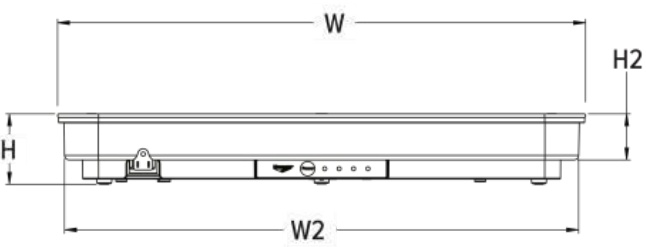

Low power usage and inter-connect cord allows up to three units to run off of one power cord

Inter-connect cords store in compartment under unit when not in use

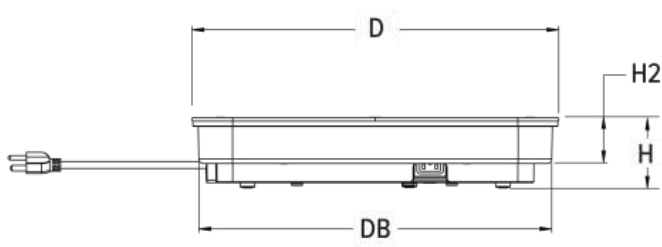

6-foot cord with China plug

Mirage® Induction Buffet Warmers - DISCONTINUED

Maximize your menu offerings without maxing out your electrical capacity with the Mirage® Induction Buffet Warmers. The low wattage warmers can be interconnected to one electrical outlet, which simplifies the planning and management of power cords, access to outlets and load capacity.

Use for holding/warming of foods for serving - ideal for banquets and catering

Fewer cords- connect up to 3 units together with an inter-connect cord – and only run one power cord to outlet on wall

Subtle, low-profile, attractive design coordinates with any serving set-up

Four power levels - low, medium, high and chafer preheat

Countertop version available in Natural or Black

LED indicator lights on control panel and glass

U.S. units only : At 2.5 Amps each, up to 5 units (at maximum power) can be plugged into a 15 amp circuit. 3 per power cord.

Convenient storage compartment underneath unit for cords not in use

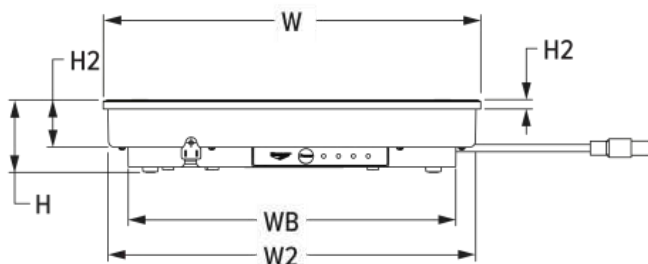

Fits perfectly in 59145 carrying case (sold separately)

Designed to work with one (1) Vollrath chafer or serving vessel, or equivalent induction-ready chafer or serving vessel

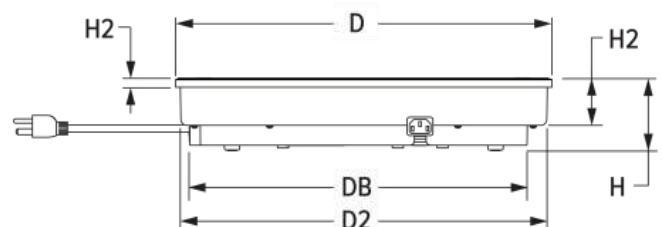

Custom decorative patterns or logos available on 16x16 units. Contact your local Vollrath sales representative for more information.

Mirage® Induction Buffet Warmers - DISCONTINUED

Maximize your menu offerings without maxing out your electrical capacity with the Mirage® Induction Buffet Warmers. The low wattage warmers can be interconnected to one electrical outlet, which simplifies the planning and management of power cords, access to outlets and load capacity.

Use for holding/warming of foods for serving - ideal for banquets and catering

Fewer cords- connect up to 3 units together with an inter-connect cord – and only run one power cord to outlet on wall

Subtle, low-profile, attractive design coordinates with any serving set-up

Four power levels - low, medium, high and chafer preheat

Countertop version available in Natural or Black

LED indicator lights on control panel and glass

U.S. units only : At 2.5 Amps each, up to 5 units (at maximum power) can be plugged into a 15 amp circuit. 3 per power cord.

Convenient storage compartment underneath unit for cords not in use

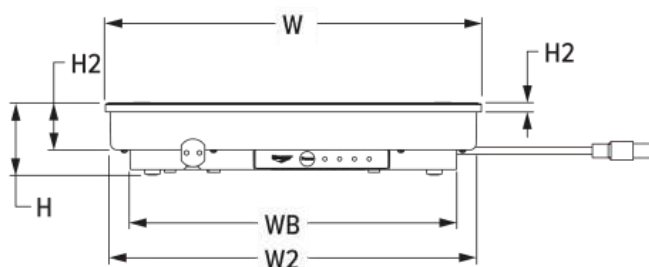

Fits perfectly in 59145 carrying case (sold separately)

Designed to work with one (1) Vollrath chafer or serving vessel, or equivalent induction-ready chafer or serving vessel

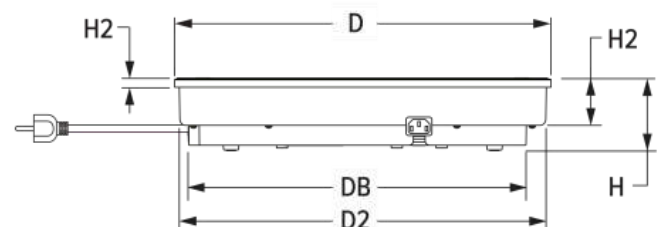

Custom decorative patterns or logos available on 16x16 units. Contact your local Vollrath sales representative for more information.

120-volt 16-inch Mirage® square countertop induction buffet warmer in black

Expand your menu offerings while saving energy with the Mirage square countertop induction buffet warmer by Vollrath. This warmer's touch controls are easy to use and prevent accidental temperature adjustments, while the LED indicator lights on the control panel and glass top keep you informed. The four temperature settings allow you to hold a variety of foods at safe temperatures. Several safety features extend the life of the unit and improve the overall experience. The black tempered glass top is durable and easy to clean,

and the smooth, attractive design coordinates with any serving setup.

Due to the low power usage, you can operate up to three warming units per electrical outlet, simplifying cord management and easing load capacity concerns. Easily connect up to three units with the included interconnect cords, and then plug the middle unit into a wall outlet. When the cords are not in use, store them in the compartment underneath the unit for ultimate convenience.

Ideal for any buffet or catering event

Low, medium, high and preheat chafer temperature settings allow you to serve a variety of foods

Overheat protection, small article detection, pan auto-detection, and empty pan auto-shutoff safety features extend the life of the unit

LED indicator lights keep you informed

Sleek, low-profile design and classic black color create an attractive presentation

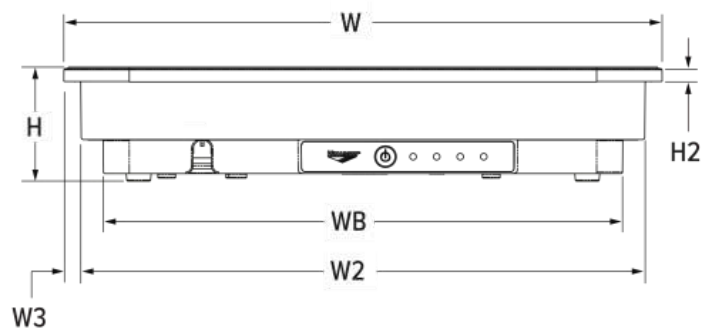

Low power usage and inter-connect cord allows up to three units to run off of one power cord

Inter-connect cords store in compartment under unit when not in use

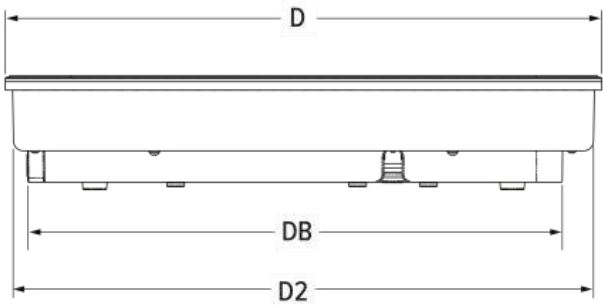

U.S. units only : At 2.5 Amps each, up to 5 units (at maximum power) can be plugged into a 15 amp circuit. 3 per power cord.

24-inch 120-volt Cayenne® left-aligned heated shelf

The Cayenne heated shelf by Vollrath features two heating zones for impressive versatility. Depending on your needs, you can keep the whole shelf warm or turn a zone off to reduce energy usage. The thermostatic controls ensure accurate heating, and the rope-style element is powerful and reliable. The left-aligned controls are accessed and adjusted easily, while the smooth top and welded corners make cleaning quick and convenient. With an aluminum core and a durable stainless steel exterior, this heated shelf was built to last.

Efficiently maintains heat of cooked food products

Aluminum core distributes heat evenly for superior results

Stainless steel outer construction is durable and long-lasting

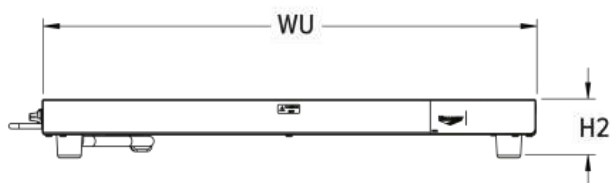

Rope-style heating element is powerful and reliable

Thermostatically controlled for more accurate heating

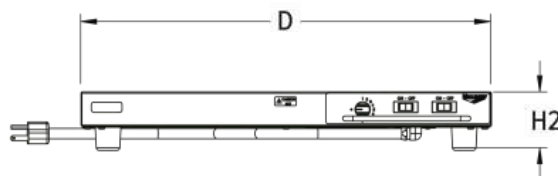

Separate front and back heating zones warm multiple food items at once

NSF-certified

48-inch 120-volt Cayenne® light strip with four 60-watt display bulbs

Light up your food area with the Cayenne light strip by Vollrath. This 48-inch light strip features four 60-watt shatterproof display bulbs that are bright and long-lasting. The structurally engineered aluminum housing offers maximum strength with minimal weight, and a reflector directs maximum light to the display area. The toggle switch controls are easy to use, and the included chain mounting tabs and mounting brackets ensure easy installation. Optional Kool-Touch® trim (Vollrath item number 1789748, sold separately) is heat-resistant for increased safety.

Designed to illuminate your food preparation and display areas

Structurally engineered aluminum housing offers maximum strength with minimal weight

Reflector directs maximum light to the display area

Simple toggle switch controls are easy to use

Included chain mounting tabs and mounting brackets ensure easy installation

Optional Kool-Touch trim (Vollrath item number 1789748, sold separately) and is heat-resistant for increased safety

Please note this is a made-to-order item. These items require additional time for fulfillment. Made-to-order items cannot be changed, canceled or returned and may be subject to a minimum-order quantity. Contact your Vollrath sales representative for details.

LAMP -60W 120V SATIN SPUN GLOW

23298-1

Cayenne® Light Strips

Used to illuminate food serving display areas or food preparation areas.

Structurally engineered aluminum housing offers maximum strength with minimal weight

Standard polished stainless steel light reflector directs maximum light to the display area

Bulbs - available in either 40 watt standard or 60 watt display styles

120V, single-phase

Includes onboard toggle switch controls - located on the operator's left

6" (15.24 cm) pigtail leads - located on the server's left

Optional Kool-Touch® decorative trim

Bulbs available (Item 23236)

Includes chain mounting tabs and a set of 1" (2.5 cm) top mounting brackets

One-year parts and labor warranty

18-inch 120-volt Cayenne® heat strip with cord and plug

Keep food items hot and fresh with the Cayenne heat strip by Vollrath. It features a structurally engineered aluminum housing that offers maximum strength with minimal weight. The unique element ensures impressive heat production, with a sheathed design for improved dependability and longevity. The reflector ensures evenly dispersed heat and creates a large temperature zone above 140°F for safer food holding. Toggle switch controls are easy to use, and two screws allow quick service access when needed. This heat strip

has a 6-foot cord and plug, and it must be used with legs (Vollrath item numbers 44504 and 4450613, sold separately). Optional Kool-Touch® trim (Vollrath item number 1789718, sold separately) is heat-resistant for increased safety.

30" Cayenne® Cord and Plug Heat Strip

Unique heating design offers greater and more even heat dispersion for more effective warming

Sheathed style element for dependability and longer life

Structurally engineered aluminum heater housing offers maximum strength with minimal weight

Bright anodized aluminum heat reflector generates more even heat over food holding area

Reflector assembly is field-adjustable allowing operator to direct heat pattern where needed

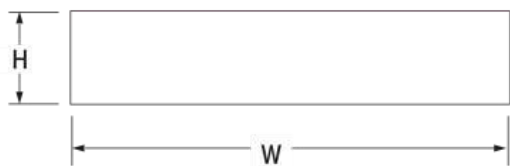

Cord and Plug units must be mounted on legs

One year parts and labor warranty supported by a service network for worry-free operation. Additional one year warranty on heating element (parts only).

Mounting and trim options available

NOTE: Cayenne Heat Strips and Cayenne Light Strips are custom ordered and cannot be cancelled or returned

42-inch 120-volt Cayenne® heat strip with cord and plug

Keep food items hot and fresh with the Cayenne heat strip by Vollrath. It features a structurally engineered aluminum housing that offers maximum strength with minimal weight. The unique element ensures impressive heat production, with a sheathed design for improved dependability and longevity. The reflector ensures evenly dispersed heat and creates a large temperature zone above 140°F for safer food holding. Toggle switch controls are easy to use, and two screws allow quick service access when needed. This heat strip

has a 6-foot cord and plug, and it must be used with legs (Vollrath item numbers 44504 and 4450613, sold separately). Optional Kool-Touch® trim (Vollrath item number 1789742, sold separately) is heat-resistant for increased safety.

230-volt 16-inch Mirage® square countertop induction buffet warmer in black with Schuko plug

Expand your menu offerings while saving energy with the Mirage square countertop induction buffet warmer by Vollrath. This warmer's touch controls are easy to use and prevent accidental temperature adjustments, while the LED indicator lights on the control panel and glass top keep you informed. The four temperature settings allow you to hold a variety of foods at safe temperatures. Several safety features extend the life of the unit and improve the overall experience. The black tempered glass top is durable and easy to clean,

and the smooth, attractive design coordinates with any serving setup.

Due to the low power usage, you can operate up to three warming units per electrical outlet, simplifying cord management and easing load capacity concerns. Easily connect up to three units with the included interconnect cords, and then plug the middle unit into a wall outlet. When the cords are not in use, store them in the compartment underneath the unit for ultimate convenience.

Ideal for any buffet or catering event

Low, medium, high and preheat chafer temperature settings allow you to serve a variety of foods

Overheat protection, small article detection, pan auto-detection, and empty pan auto-shutoff safety features extend the life of the unit

LED indicator lights keep you informed

Sleek, low-profile design and classic black color create an attractive presentation

Low power usage and inter-connect cord allows up to three units to run off of one power cord

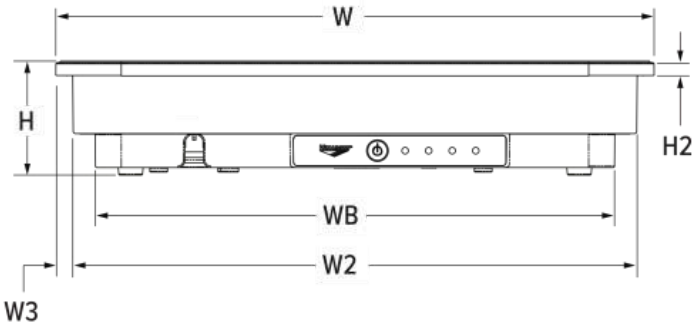

Inter-connect cords store in compartment under unit when not in use

6-foot cord with Schuko plug

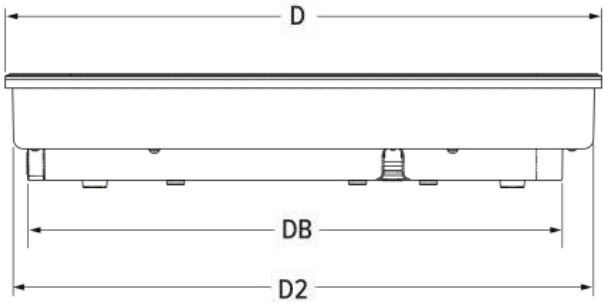

Custom decorative patterns or logos available on 16" x 16" units. Contact your local Vollrath sales representative for more information.
